Centipedegrass

***The lawn grass of choice
throughout the South***

Centipedegrass

Originally introduced from China in seed form, Centipedegrass has set the standard for low maintenance lawn grasses since the early 1950's. Today, ***Patten Seed*** is the oldest producer of quality Centipedegrass sod and ***Centi-Seed***[®] Centipedegrass seed. This medium green, medium width leaved turfgrass is commonly used in home lawns, commercial landscapes and roadsides in the southern U.S. and in warm climates around the world.

- **Lowest maintenance requirements of all lawn grasses**
- **Attractive green color**
- **Excellent winter tolerance in the middle and deep south**
- **Mows easily and less frequently with either reel or rotary mower**
- **Recovers quickly from drought**
- **Aggressive establishment from sod**
- **Lowest fertility requirements of any fine turfgrass**

For pricing and delivery information call 800-634-1672 or find additional information at www.super-sod.com

Low maintenance requirements such as minimal fertilization and infrequent mowing make centipede the grass of choice for many in the South. For both residential and commercial uses, ***Super-Sod***[®], a division of Patten Seed Company, is the oldest and largest commercial producer of Centipedegrass.
